

# Bathroom Organization Checklist

By Nicole Nichols-West

- Organizing Your Bathroom
  - Empty the drawers.
  - Separate the items you want to keep and toss anything you don't need or use anymore.
  - Wipe off everything you take out of the drawers and off shelves as you remove them.
  - Clean every surface, including the counters, cupboards, shelves.
  - Use organizational cosmetic containers to place the cosmetics accordingly.
  - When emptying the cabinets, keep a lookout for repeat purchases.
  - Move your medicines to the kitchen.
  - Keep all jewelry out of the bathroom.
  - Place everyday items in convenient locations.
  - Store less used products in the lower drawers or at the back of a cupboard.
  - Have a designated spot for wet or dirty towels.
  - Set up a drip-dry container for bath toys if you have small children.
- Space Saving Tips
  - Transform the dead space over a toilet by adding a stacked cabinet.
  - Consider a space-saving towel rack.
  - Cut down on clutter in the shower by installing a wall-mounted shower dispenser.
  - Place hooks on the walls and back of doors for housecoats and towels.
  - Take the electric toothbrushes and hairdryers and secure them on the wall to free up counter space.
  - Use a hand soap dispenser for cleaning hands.
  - Install a basket in the shower/bath to hold the shampoos and other products.
  - Use under-sink space.
