Breastfeeding Checklist

By baby checklist

| | Ро | sitioning | |
|--|-------------------|---|--|
| | | Baby and I are tummy to tummy | |
| | | Baby's ear, shoulder, and hip are in a straight line. | |
| | | Baby's mouth is at my nipple level when I nurse him. | |
| | | Use a pillow to help me be more comfortable. | |
| | | Baby's nose and chin are close to my breast. | |
| | | I support my breast with my thumb on top. | |
| | Latch On | | |
| | | Baby's lips are curled out. | |
| | | Baby gets a lot of my areola into his mouth. | |
| | | Baby's cheeks are full while nursing. | |
| | | I can see baby's jaw move as he nurses. | |
| | | I can hear baby sucking and swallowing on a regular basis. | |
| | | I let baby nurse as long as he wants. | |
| | | Baby gives me signs that he is hungry. | |
| | Breastfeeding | | |
| | | Baby nurses about every 1 1/2 hours to 3 hours. | |
| | | Baby's urine is clear and/or light yellow, not dark and orange. | |
| | | Baby's bowel movements By day 5, baby's bowel movements are soft, yellow and seedy, and occur regularly. | |
| | | 3 bowel movements a day. During the first 4 weeks, baby has a minimum of 3 bowel movements a day. | |
| | | Baby's skin is firm and healthy. | |
| | | Baby's face, eyes and head are full, not sunken in. | |
| | | Baby is alert and happy. | |
| | | Baby seems happy while nursing. | |
| | | Baby is gaining weight. | |
| | Incorrect Nursing | | |
| | | Baby's head is not in line with his body. | |
| | | He is sucking on the nipple only He is sucking on the nipple only, instead of suckling on the areola with the nipple far back in his mouth. | |

| He is sucking in a light, quick, fluttery manner He is sucking in a light, quick, fluttery manner rather than taking deep, regular suckles. |
|---|
| His cheeks are puckered inward. |
| You hear clicking noises. |
| You don't hear him swallow regularly You don't hear him swallow regularly after your milk production has increased. |
