

House Cleaning Checklist

By Fae Fisher

- Basic Cleaning Supplies For Spring House Cleaning**
 - Remove** Get rid of the old T-shirts and bar towels and get 2 good Micro Fiber cloths. One for wet use and one for dry.
 - Buy** Get a good scrub brush that's tapered on one end to get into corners and make sure it has a grip you can handle.
 - Save** Save a tree and get a squeegee for your windows instead of using rolls and rolls of paper towels.
 - Dust** Get an extendable duster to reach into corners and get ceiling fan blades.
 - Gloves** You'll need a good pair of rubber gloves that can stand up to some punishment.
 - Throw away last year's ratty toilet brush and start fresh.**
 - You'll need a broom and dustpan.**
 - Find an old toothbrush or two for scrubbing tight corners.**
 - Get a caddy to carry your cleaning supplies.**
 - Get a good general purpose cleaner in a spray bottle.**
 - Put a mild abrasive cleaner in your caddy, too.**
 - Get a dishwashing liquid with a grease cutter.**
 - Include a small box of baking soda for counter tops.**
 - Get a good quality, odorless oven cleaner.**
- Spring House Cleaning List - The Kitchen**
 - Empty all cupboards and wipe out crumbs and dust.**
 - Reorganize** Reorganize cupboards and use storage containers to hold cereal grain products that have been open for awhile to prevent rodents and insects.
 - Clean the cupboard under the sink and check for any evidence of water damage.**
 - Empty refrigerator and freezer to clean and check dates on everything before you put it back in.**
 - Take your oven racks out and clean the inside of the oven, the racks, and the the drip pan, with oven cleaner.**
 - If your stove top has removable coils, remove them and the burner pans for cleaning.**
 - Replace your burner pans if necessary so you'll have a bright, shiny new oven when you're done.**
 - Scour the sink.**

- Use ;dish washing ;detergent with a degreaser to clean the hood above your oven.
- Clean the outside of all cabinets and appliances with a mild, non-abrasive cleanser.
- Vacuum Pull all appliances out from the wall and clean the backs. If necessary use your vacuum around the coils on the back of the refrigerator to remove dust build up.
