

University Checklist

By Laura Cooper Peterson

- Preparation
 - Consider your career path and how much you can expect to make after graduation.
 - Submit an application for admission to the university.
 - Get accepted for admission into a chosen degree program.
 - Consider all the costs associated with attending college.
 - Apply early for the financial aid packages.
 - Consider work-study as a way to contribute to the cost of your education.
 - Consider the schools you applied to.
 - Check the academic programs the school offers.
 - Check the campus.
 - Check housing and the local infrastructure.
 - Accept the offer.
- University
 - Attend an enrolment information session.
 - Enrol in your courses.
 - Get your student ID card.
 - Get to know other first-year students.
 - Get a student perspective on study from senior students.
 - Get to know your campus.
 - Check university website where you can access all university information.
 - Buy your necessary textbooks and other equipment prior to the first week of formal classes.
 - If you're coming from interstate or overseas, make sure you have accommodation lined up.
 - If you're planning on catching public transport to class, work out which buses, trains or trams you will catch.
 - Work out which parking facilities you'll use if you're driving into university.

- If you plan to work part-time, determine how much work you can fit in with your course choices.
- Set up a study area at home or determine which on-campus computer suites you'll use.
