

Household Chores Checklist

By Checklister

- ☐ Agree who handles each chore this week

Assign each job to someone who accepts it. Remove jobs that do not apply, and adjust the workload to people's available time and ability.

- ☐ Wash the dishes and clear the sink

Include loading or unloading the dishwasher if you use one.

- ☐ Wipe the kitchen worktops and eating table

- ☐ Empty full bins and put out the collection

Check the local collection day; separate recycling according to local rules.

- ☐ Put shared-space belongings back where they belong

- ☐ Wash the next laundry load

Check garment care labels and sort the load as needed.

- ☐ Dry the washed laundry

- ☐ Fold and put away clean laundry

- ☐ Change the bed linen that is due

- ☐ Clean the bathroom sink and toilet

Use the appropriate products according to their labels. Never mix cleaning products.

- ☐ Vacuum or sweep the floors that need it

- ☐ Mop suitable hard floors

Follow the floor manufacturer's care instructions.

- ☐ Check household supplies and add shortages to the shopping list

Check essentials such as toilet paper, bin liners and laundry detergent before buying more.

- ☐ Agree the next step for unfinished chores

Move unfinished jobs to a realistic date or agree a different owner. Do not mark them finished just to clear the list.
