

Jewelry Cleaning Checklist

By Lauren Meir

- Cleaning Gold
 - Prepare a solution of 2 cups warm water with a few drops of mild dishwashing liquid.
 - Soak gold in the prepared solution for 15 minutes.
 - Gently scrub the gold with a soft bristle toothbrush.
 - Rinse with warm water and dry with a soft jewelry cloth.
- Cleaning Silver
 - Rinse silver in warm water and pat dry.
 - Remove silver tarnish
 - Use a silver polishing cloth or a jar or bottle of silver cleaning fluid.
 - Use a soft rag or cloth with the silver cleaning fluid
 - The tarnish will come off on the rag.
 - Use a rag with silver-cleaning paste for jewelry with intricate designs
 - The paste will get into and clean the crevices.
 - Rinse quickly in lukewarm water.
 - Wipe completely dry with a clean, soft cloth.
- Cleaning Diamonds and Platinum
 - Prepare a solution of 1 cup water and 1/4 cup ammonia.
 - Soak jewelry in the prepared solution for 20 minutes.
 - Gently scrub with a soft-bristle toothbrush.
 - Rinse with warm water, and lay on a cloth to dry.
 - An ultrasonic jewelry cleaner may be used on platinum and diamonds.
- Cleaning Emeralds
 - Prepare a solution of ;1 cup lukewarm water and a few drops of mild dishwashing liquid.
 - Soak emerald for a few minutes in the prepared solution.
 - If emerald is still dirty, put some soap on a soft-bristle toothbrush and gently scrub the underside of the emerald.
 - Once the emerald begins to brighten, rinse with warm water and pat dry.
- Cleaning Pearls
 - Prepare a solution of 2 cups warm water and a few drops of mild dishwashing liquid.
 - Dampen a soft, clean jewelry cloth with the prepared solution.
 - Carefully rub each pearl with the dampened cloth.
 - Let pearls air-dry overnight.
- Cleaning Rubies and Sapphires
 - Prepare a solution of 1 cup lukewarm water and mild dishwashing liquid, or 1 part ammonia to 6 parts water.
 - Soak gems in prepared solution for a few minutes.
 - Gently scrub gems with a soft-bristle brush.
 - Rinse with warm water and pat dry.
- Cleaning Opals
 - Prepare a solution of 2 cups warm water and a few drops of mild dishwashing liquid.
 - Dampen a soft, clean jewelry cloth with the prepared solution.

- Rub the opals until they are clean.
- Rinse briefly in lukewarm water and pat dry.
- Cleaning Amethysts, Garnets and Other Gemstones
 - Prepare a solution of ;1 cup lukewarm water and a few drops of mild dishwashing liquid.
 - Soak gems in prepared solution for a few minutes.
 - Gently scrub gems with a soft-bristle brush.
 - Rinse with warm water and pat dry.
