

UK National Parks Checklist

By Checklist.com

- ☐ **The Broads National Park**
England — A landscape of rivers, lakes and wetlands in Norfolk and Suffolk. A boat trip reveals a very different side of a national park; check mooring and wildlife protection rules.
- ☐ **Dartmoor National Park**
England — Granite tors and open moorland define Dartmoor. Check current access guidance and avoid approaching grazing livestock.
- ☐ **Exmoor National Park**
England — Coastal cliffs, wooded combes and open moorland straddle Devon and Somerset. For a coastal visit, explore the South West Coast Path and check tides.
- ☐ **Lake District National Park**
England — Lakes, fells and valleys make this a classic walking destination. Choose a route suited to your experience and check mountain forecasts before setting out.
- ☐ **New Forest National Park**
England — Heathland, ancient woodland and free-roaming ponies characterize the New Forest. Keep your distance from animals and use marked parking areas.
- ☐ **North York Moors National Park**
England — Heather moorland meets the Yorkshire coast. Combine a moorland walk with coastal villages, checking trail access and weather.
- ☐ **Northumberland National Park**
England — Remote uplands, Hadrian's Wall country and dark skies distinguish this park. Some routes are exposed, so plan around daylight and conditions.
- ☐ **Peak District National Park**
England — The contrasting Dark Peak and White Peak landscapes reward different kinds of walks. Popular trailheads fill early on weekends.
- ☐ **South Downs National Park**
England — Chalk hills and the South Downs Way stretch across southern England. Choose a section walk and watch for cyclists and livestock.
- ☐ **Yorkshire Dales National Park**
England — Dry-stone walls, limestone scenery and deep valleys are hallmarks of the Dales. Check the local weather before caving or high-level hiking.
- ☐ **Bannau Brycheiniog (Brecon Beacons) National Park**
Wales — The park uses its Welsh name, Bannau Brycheiniog. Popular ridge walks and waterfalls need suitable footwear and weather-aware planning.
- ☐ **Eryri (Snowdonia) National Park**
Wales — Eryri contains Yr Wyddfa (Snowdon), Wales's highest mountain. Its popular routes can be busy and demanding; use official access and weather information.
- ☐ **Pembrokeshire Coast National Park**
Wales — Coastal paths, beaches and headlands are the main draw. Check tide times and cliff safety when choosing a walk.
- ☐ **Cairngorms National Park**
Scotland — Britain's largest national park includes high mountain plateaus, forests and villages. Mountain conditions change rapidly, even in summer.
- ☐ **Loch Lomond & The Trossachs National Park**
Scotland — Lochs, forests and hills sit within reach of Glasgow. Seasonal camping byelaws apply in some areas; confirm rules before an overnight trip.
