

Vehicle Checklist

By Taylor Peterson

- Preparation**
 - Paperwork** Bring in current paperwork from last inspection.
 - Maintenance** Proof of maintenance needs to be brought in to the inspection as well.
- Things to Take**
 - Proof of insurance** Proof that a recurring policy has actually been paid is useful as well.
 - Identification** Driver's license and registration to vehicle to prove who you are.
- Safety Issues to Consider**
 - Tires** Perhaps it is time to consider replacing them, if the tread is less than fifty percent because tire blowouts are no fun.
 - Headlights** They do burn out, sometimes causing crashes, so replacing them on your own is a good idea.
 - Seat belts** These do sometimes wear thin, or actually break, so replace them if needed.
 - Oil** Top off before going in, but be sure to mop up any spills that could cause smoking.
 - Brakes** If these start to squeak at all, it's time for a trip to the shop so that your fellow drivers don't get hit because you can't stop.
 - Muffler** Contrary to popular belief, driving around with a hole in the muffler is not safe, and will not pass an inspection.
