## Vehicle Checklist

## By Taylor Peterson

	Pre	eparation
		Paperwork Bring in current paperwork from last inspection.
		Maintenance Proof of maintenance needs to be brought in to the inspection as well.
	Th	ings to Take
		Proof of insurance Proof that a recurring policy has actually been paid is useful as well.
		Identification Driver's license and registration to vehicle to prove who you are.
	Safety Issues to Consider	
		<b>Tires</b> Perhaps it is time to consider replacing them, if the tread is less than fifty percent because tire blowouts are no fun.
		<b>Headlights</b> They do burn out, sometimes causing crashes, so replacing them on your own is a good idea.
		Seat belts These do sometimes wear thin, or actually break, so replace them if needed.
		Oil Top off before going in, but be sure to mop up any spills that could cause smoking.
		<b>Brakes</b> If these start to squeak at all, it's time for a trip to the shop so that your fellow drivers don't get hit because you can't stop.
		Muffler Contrary to popular belief, driving around with a hole in the muffler is not safe, and will not pass an inspection.
